

Part M: Technical Referee Report – Roofing (Stormwater) work

THIS DOCUMENT MUST BE COMPLETED BY THE PERSON PROVIDING THE REFERENCE

What is a Technical Referee Report?

An applicant applying for registration in a class or specialised class of plumbing work must have recent and relevant experience in carrying out work in accordance with relevant standards. The Technical Referee Report provides information about the applicant's work, when it was performed, and the applicant's role in performing that work. It is prepared by a person who has directly supervised the applicant in performing plumbing work

The Victorian Building Authority (VBA) uses the report to help determine whether the applicant has sufficient experience to be considered for registration as a plumbing practitioner.

Who can provide a Technical Referee Report?

If the report relates to plumbing work performed in Victoria, the referee must be licensed in the class of plumbing for which they are providing the Technical Referee Report.

If the report relates to plumbing work undertaken outside Victoria, and that work is performed by licensed persons, then the referee must be licensed (or equivalent) in the class of plumbing for which they are providing the Technical Referee Report.

If the report is about work performed interstate or overseas, and it does not require a person to be licensed, the referee can be a person who has employed or contracted the applicant to undertake the work.

In addition, the referee must:

- be the person who was responsible for ensuring the work was completed to the appropriate standard. Typically this would be the applicant's employer, supervisor, contract manager or site manager.
- have directly observed the applicant carrying out the work that is listed in the report.

What are my responsibilities as a Technical Referee?

As a Technical Referee, you must:

- provide an accurate and true reference
- NOT give any false or misleading statement or information
- be willing to be contacted by the VBA to confirm or explain further the work the applicant performed
- sign and date the Technical Referee Report Declaration.

Technical Referee Report – Roofing (Stormwater) work

DETAILS OF THE TECHNICAL REFEREE	
Given name:	
Surname:	
Date of birth:	
Address:	
Contact number:	
Licence number:	
EMPLOYER DETAILS	
Name of company:	
Name of employer (if this is not you):	
ABN:	
Address:	
Contact number:	

Use this form to tell us about Roofing (Stormwater) work the applicant carried out under your supervision.

DETAILS OF THE APPLICANT FOR WHOM YOU ARE PROVIDING THE TECHNICAL REFEREE REPORT	
First name:	
Surname:	
TYPE OF EMPLOYMENT (Tick the relevant box/es)	PERIOD OF SUPERVISION: FROM – TO (Month/Year)
<input type="checkbox"/> Apprentice	
<input type="checkbox"/> Full time	
<input type="checkbox"/> Part time (please also include average number of hours per month)	
<input type="checkbox"/> Casual (please also include average number of hours per month)	

To complete the following table:

In column 1

Tick each area of work that the applicant undertook under your supervision, otherwise leave blank.

In columns 2 and 3

Fill in information about:

- which aspects of the work the applicant performed
- when and where the work was done.

Remember

- Provide information about work the applicant undertook that you supervised. Do not include information about any work that you did not supervise personally.
- Please include as much detail as possible, because the VBA will use this statement to work out whether the applicant has enough experience for registration.
- You must not (under section 221V of the *Building Act 1993*) give any false or misleading statement or information in your report.
- The VBA will return your report if it is incomplete or doesn't have enough detail, and ask you for more information.

Column 1	Column 2	Column 3
<p>Did you supervise the applicant carrying out the following types of work? (Tick the box)</p>	<p>What were the applicant's exact responsibilities?</p>	<p>When/where was the work done?</p>
<p><input type="checkbox"/> Installed, replaced and tested any roof covering or flashing</p>		
<p><input type="checkbox"/> Installed or replaced any part of a roof drainage system that collects and disposes of stormwater that connects to ground level</p>		
<p><input type="checkbox"/> Installed eaves gutters, overflows and fabricated and installed downpipes</p>		

<input type="checkbox"/>	Installed box gutters, outlets, overflows, rainheads and sumps		
<input type="checkbox"/>	Installed drains above ground and downpipes for the roof drainage system		
<input type="checkbox"/>	Installed flashings such as soaker, step, apron, valley, ridge, pressure and side flashings		
<input type="checkbox"/>	Installed flashing for penetrations to fixtures such as vent pipes, skylights, air-conditioning units, flues and exhaust fans
