

Part L: Experience Statement for Quantity Surveyor

How to fill out this statement

STEP 1

Read about the **skills, knowledge** and **experience** that you need to demonstrate if you are applying for registration in the category of Quantity Surveyor work.

STEP 2

Fill out tables 1 and 2:

In table 1, tell us about your *general experience* in Quantity Surveyor work.

In table 2, tell us about *all projects* in which you have participated in Quantity Surveyor work.

STEP 3

Read table 3. It explains the types of evidence that you can use to demonstrate the experience that you note in table 2. You will need to present your evidence portfolio when you lodge your application.

Remember

- Please include as much detail as possible, because this statement will be used to work out whether you have enough experience for registration.
- In your application, you will need to provide references to confirm you have completed this work.
- It is an offence under section 246 of the *Building Act 1993* to give any false or misleading statement or information in your application.
- We will return your application if this statement is incomplete or doesn't have enough detail, and ask you for more information.

STEP 1. Learn about skills, knowledge and experience that you need

Qualifications

If you have successfully completed one or more of the following, you will satisfy the knowledge required for registration in the category of Quantity Surveyor:

- Bachelor of Applied Science (Construction Management) from RMIT University
- Bachelor of Construction Management (Honours) from Deakin University
- Bachelor of Construction Management and Economics from Holmesglen Institute.

Experience

To assess whether you have the required experience for registration as this class of building practitioner, you must provide a portfolio (tables 1, 2 and 3) of evidence that demonstrates your experience.

This evidence must show you can undertake all the activities associated with Quantity Surveyor work in a competent manner and to a professional standard.

In table 2, list all projects in which you have been involved in Quantity Surveyor work. The list must summarise your experience gained under the supervision of a registered Quantity Surveyor or a Member of the Australian Institute of Quantity Surveyors.

Your portfolio should include evidence of:

- your experience in the areas that you tick in table 1
- your participation in *at least three different building projects of different purpose* from this list:
 - aged care facilities
 - commercial office buildings
 - educational facilities
 - health care buildings or hospitals
 - hotels and hospitality
 - industrial
 - residential — multi-unit developments
 - retail.

You will be assessed against your capacity to:

- prepare cost estimates and budgets
- prepare tender documentation, assess tender responses and provide a recommendation
- monitor construction costs against budgets, analyse variations and document results
- finalise construction costs and post-construction activities.

STEP 2. Complete tables 1 and 2

Table 1. Fill out this table to describe all Quantity Surveyor work that you have done

STEP 3. Use table 3 to create your evidence portfolio

Table 3.

Use this table to create an evidence portfolio that supports your Quantity Surveyor experience in *three different building projects of different purpose* from this list:

- aged care facilities
- commercial office buildings
- educational facilities
- health care buildings or hospitals
- hotels and hospitality
- industrial
- residential — multi-unit developments
- retail.

Area of experience	Required documentation
<p>Criterion 1 Prepare project cost estimates and budgets</p>	<p>Evidence of work undertaken pre-construction:</p> <ul style="list-style-type: none"> • a copy of the relevant plans, drawings or specifications from which you worked • initial cost estimates and budgets you prepared during the pre-contract phase • documentation demonstrating your preparation of design efficiency analyses • documentation demonstrating your preparation of complex quantity and cost schedules ('take-offs') for project material quantities and costs
<p>Criterion 2 Prepare tender documentation, assess tender responses and provide recommendation</p>	<p>Documents that you prepared, or assisted in preparing, to enable the project to go to tender, including bills of quantities or similar documents</p> <p>Evidence of your involvement in assessing tender responses and contributing to the tender selection process</p>
<p>Criterion 3 Monitor construction costs against budgets, analyse variations and document results</p>	<p>Evidence of work undertaken during construction:</p> <ul style="list-style-type: none"> • expenditure schedules that you developed and maintained during construction, with evidence of variations in expenditure • work that you undertook to help identify and quantify risks throughout each project • site reports that you produced to verify completion of works for progress payments • budgetary reviews, cashflow reports or other reporting mechanisms that you used to inform clients of progress towards completion, and overall project cost tracking during construction

Criterion 4 Finalise construction costs and post-construction activities

Evidence of work undertaken post-construction:

- written evidence of managing adjustments to project contracts at the finalisation of the building work, such as adjustments required to finalise payments
- evidence of providing the client with an outline of all final costings and expenditures for the project
- evidence of handling disputes between the property owner and the builder

Other information that may include:

- replacement cost estimations for insurance purposes
- preparation of tax depreciation schedules
