Overview

About

For every class of plumbing outlined in The *Victorian Plumbing Regulations 2018*, the VBA publishes a list of prescribed Units of Competency (units) for both registration and licensing purposes.

The document outlines the units published in April 2021 in the Victorian gazette for both registration and licensing in the following specialised classes of plumbing:

1. Backflow Prevention Work
2. Thermostatic Mixing Valve Work
3. Type A Appliance Conversion work
4. Type A Appliance Servicing Work

Qualifications that units are selected from

CPC40920 Certificate IV in Plumbing and Services

About specialised classes

Before a person can apply for a registration in a specialised class, they must hold a registration in the corresponding parent class. The parent class is listed with each specialised class.

To be licensed, the practitioner must first meet the requirements for registration and also hold the common licence units. For clarity, the common units for licensing are provided for each class.

Specialised classes with the parent class of water

Backflow Prevention Work

Registration

Units: One

Unit code	Unit name	Unit group
CPCPWT4022	Commission and maintain backflow prevention devices	Elective – group B

Licence

Units: Five

Unit code	Unit name	Unit group
BSBESB402	Establish legal and risk management requirements of new business ventures	Core
CPCCB4012	Read and interpret plans and specifications	Core
CPCPCM4011	Carry out work-based risk control processes	Core
CPCPCM4012	Estimate and cost work	Core
CPCPCM4015	Access and interpret regulatory requirements for the plumbing and services industry	Core

Thermostatic Mixing Valve Work

Registration

Units: One

Unit code	Unit name	Unit group
CPCPWT4023	Commission and maintain hot and heated water temperature control devices	Elective – group B

Licence

Units: Five

Unit code	Unit name	Unit group
BSBESB402	Establish legal and risk management requirements of new business ventures	Core
CPCCB4012	Read and interpret plans and specifications	Core
CPCPCM4011	Carry out work-based risk control processes	Core
CPCPCM4012	Estimate and cost work	Core
CPCPCM4015	Access and interpret regulatory requirements for the plumbing and services industry	Core

Specialised classes with the parent class of gas

Type A Appliance Conversion Work

Registration

Units: one

Unit code	Unit name	Unit group
CPCPGS4022	Service Type A gas appliances	Elective – group B

- There is no unit that is specific to this learning; however, this unit covers some of the learning required for this class

Licence

Units: Five

Unit code	Unit name	Unit group
BSBESB402	Establish legal and risk management requirements of new business ventures	Core
CPCCB4012	Read and interpret plans and specifications	Core
CPCPCM4011	Carry out work-based risk control processes	Core
CPCPCM4012	Estimate and cost work	Core
CPCPCM4015	Access and interpret regulatory requirements for the plumbing and services industry	Core

Type A Appliance Servicing Work

Registration

Units: One

Unit code	Unit name	Unit group
CPCPGS4022	Service Type A gas appliances	Elective – group B

Licence

Units: Five

Unit code	Unit name	Unit group
BSBESB402	Establish legal and risk management requirements of new business ventures	Core
